## Safeguarding Policy and Procedures – Advice and Review

To support organisations to review and develop their Safeguarding and Child Protection policies and procedures. Also able to advise on other safeguarding related issues such as recording concerns.

## Overview

A chance to understand key requirements of a safeguarding policy and ensure that all elements are included to promote a culture of safety in the organisation.

Review and advice - structure and how this is developed will be decided on a bespoke basis with individual organisations.

## We will aim to;

- Ensure all key elements are included in the policy
- To understand the difference between policy and procedures.
- To reflect all key legislation within the policy
- To identify any changes or additions to existing policies
- Support and advise where possible in other key safeguarding areas identified with the organisation

## Charges for this service

A project proposal will be established and costings relating to this will be part of this proposal.
